Play 1, 2, 3 as slowly and smoothly as possible

On the following pages, Douglas's manuscript copy will appear on the left hand pages and facing them on the right hand page will be the music processed version.

Exercises 4, 5 and 6

Notice the "button" pattern which makes this piece easy. Most of the exercises have this sort of pattern if you look for it.

This is not quite as easy as it first seems. Even tone throughout.

I think the tempo instruction here in French is Douglas's little joke – I would recommend you practice the exercise as quickly as you are able several times before you attempt to play faster than possible!

Exercise 14 comprises a set of rhythmic variations on a simple exercise – repeating the same pattern of notes in groups of quavers, semi-quavers, triplets, dotted rhythms and so on, as written and then an octave higher – plenty of scope here for hard work! [BT]
